# Let's Reuse and Reduce for a cleaner environment

## Do you know ?

- Bottled water costs **3,500** times the price of tap water.

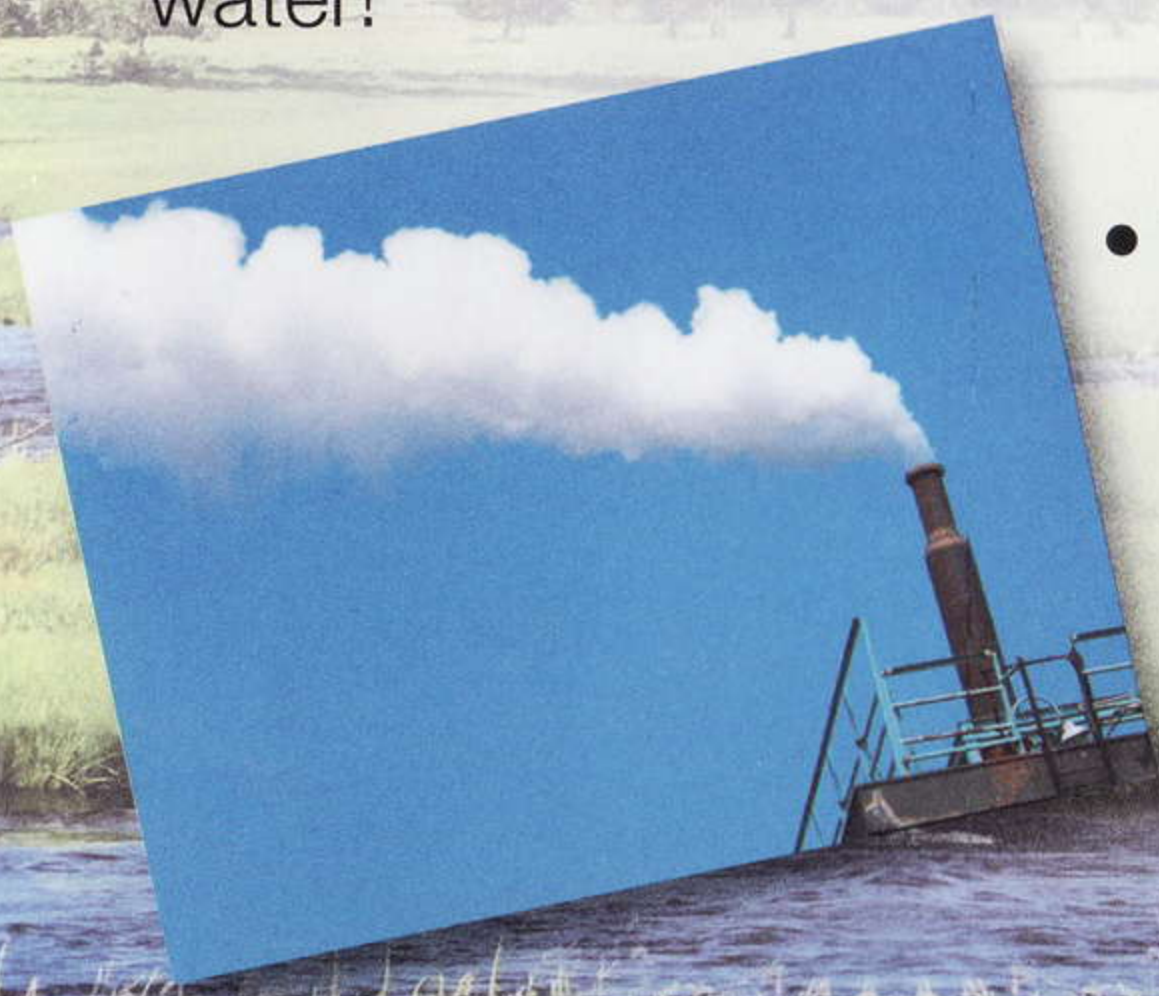

- **100,000,000** PET bottles are used every year in Malaysia, Singapore and Brunei.
- **85,000,000** PET bottles end up as garbage.

- Landfills are full of PET bottle **toxic** wastes that leach into the soil.
- This **pollutes** and **endangers** our drinking water!

- To manufacture 100,000,000 PET bottles **1,000,000** tons of carbon dioxide are produced!

## Drink Safe and Save!

With the ECO Bottle by Tupperware, you are assured that it is safe for you and your family to reuse and refill.

### SAFE:

Made with only non-toxic food grade materials to stringent world safety standards, you can have the peace-of-mind that your drinking water is safe from chemicals and carcinogens.

### SAVE:

Premium quality and durable, all you need is to reuse one ECO Bottle, and you would have done your bit to reduce your garbage contribution.

Also, with a lifetime warranty, very few ECO bottles are disposed of indiscriminately. In fact, all Tupperware containers that are returned are recycled back into other non-food containers.

REUSE. REDUCE.

# Anywhere, anytime... it's for everyone.

### Living Proof!!!

I have very fine hair, and every time I wash my hair and comb it, I see a lot of it end up in the sink. But after drinking BerryGen for 42 days, I noticed that I'm not losing as much hair as before. It was awesome!

My hair now looks more radiant and bouncy and my complexion has also improved. For beauty every day, drink BerryGen! It's Berrilicious!
